WHY CHOOSE QUINLAN CRANES?

Proven Track Record

With years of experience in the industry, we have successfully completed a wide range of projects, earning a reputation for reliability, safety and exceptional service delivery.

Commitment to Excellence

We are dedicated to excellence in everything we do, from the quality of our equipment and personnel to the level of customer service we provide.

Sustainable Practices

We are committed to operating in an environmentally sustainable manner, minimising our ecological footprint and contributing to a greener future.

Tailored Solutions

We understand that one size does not fit all. That's why we offer customised solutions tailored to meet the unique requirements of each project, ensuring optimal outcomes and client satisfaction.

Founded in 2002 by Tommy Quinlan, Quinlan Cranes was built on a vision of delivering outstanding results for clients. Today, with Sacha Sikka as sole owner, the business continues to build on that strong foundation, with more than 1,000 clients trusting us for their lifting and lift planning needs.

With a strong commitment to safety, efficiency and reliability, we provide professional lifting solutions tailored to the demands of each project. Our experienced team includes Gold Card riggers and skilled crane operators, supported by specialised equipment and proven systems that enable work to be completed safely and efficiently.

Our ability to work across diverse environments and tackle complex lifting challenges has earned us a strong reputation in the crane hire industry. Above all, we pride ourselves on quality service, clear communication and delivering practical, dependable solutions that help our clients achieve the best possible outcome.

Managing Director

OUR EXPERTISE

Comprehensive Crane Hire Services

From small-scale residential projects to large-scale industrial and civil endeavours, we offer a diverse fleet of cranes suitable for any lifting requirement. Our team of experienced operators ensures seamless execution, adhering to the highest safety standards.

Customised Solutions

We understand that every project is unique, which is why we work closely with our clients to develop customised lifting solutions that align with their specific requirements. Whether it's heavy machinery relocation, construction site lifting or infrastructure development, we have the expertise to deliver tailored solutions.

Safety First Approach

Safety is at the core of everything we do. We prioritise the well-being of our employees, clients and the community by implementing stringent safety protocols, conducting regular equipment inspections, and providing ongoing training to our personnel.

Environmental Sustainability

We are committed to ensuring that all reasonable and practical measures are taken to protect the environment and promote sustainability practices within our operations. We invest in eco-friendly technologies, employ fuel-efficient equipment, and implement waste reduction strategies to minimise environmental impact.

OUR VALUES

Integrity

We conduct our business with honesty, transparency and integrity, fostering trust and long-term relationships with our clients and suppliers.

Innovation

We embrace innovation and continuously seek out new technologies and methodologies to enhance the efficiency and effectiveness of our services while minimising environmental impact.

Safety

We place safety at the core of our business. It drives all our decisions from lift planning, engineering, fleet mix and continued investment into new machines.

Customer Focus

Our customers are at the forefront of everything we do. We prioritise their needs, provide responsive communication, and strive to exceed expectations with every project.

OUR GENERAL FLEET

We have an extensive range of cranes available for hire including mobile cranes, Franna cranes, rough terrain cranes and crane trucks.

ISO ACCREDITATION

ISO 9001 Quality Management System

ISO 9001 provides a framework for improving quality across products and services in a consistent and reliable manner. It demonstrates our ongoing commitment to customer service and a high quality product, validated by an independent party.

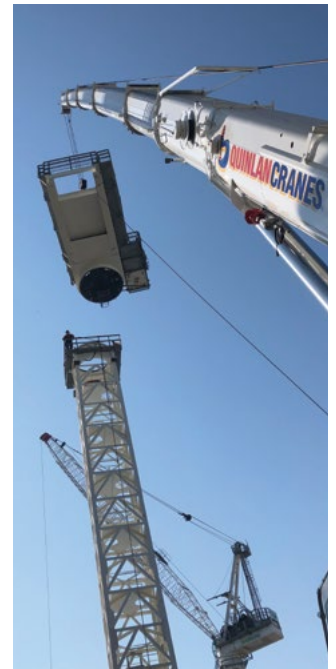

ISO14001 Environment Management System

Setting the international best-practice for environmental management, certification to ISO 14001 demonstrates our commitment to environmental outcomes across all aspects of our business. ISO 14001 defines an environmental management system drawing on the plan-do-check-act (PDCA) model and risk-based thinking to create a framework for balancing the three pillars of sustainability: development; transparency; and accountability.

ISO 45001 OH&S Management System

An OHS management system promotes a healthy working environment by providing a framework to identify, control and manage the OHS risks and opportunities. Adopting and implementing an effective OHS management system (OHSMS) addresses legal, ethical and industrial relation concerns regarding worker safety and employers' duty of care.

IN-HOUSE ENGINEERING

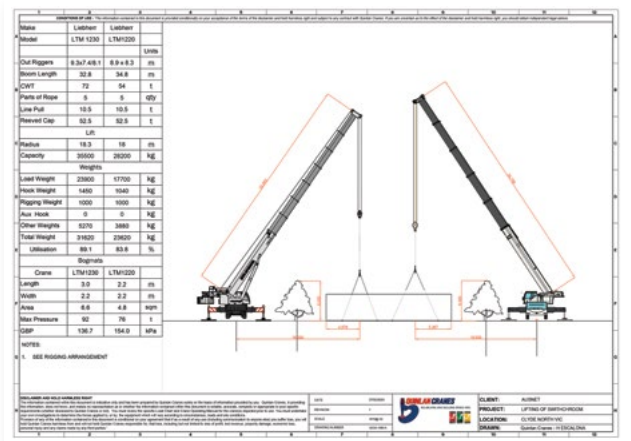

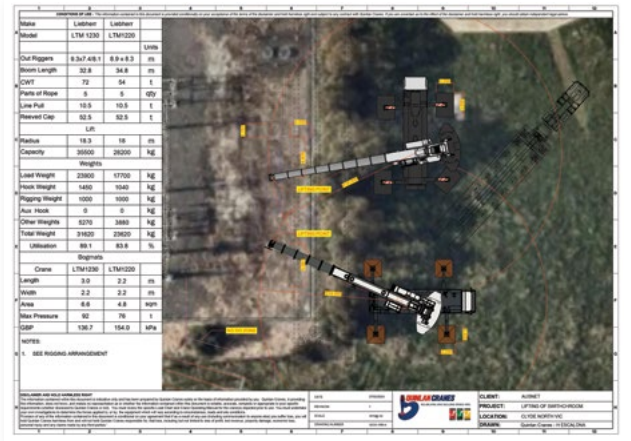

Our game changing approach to in-house engineering services sets us apart from competition by leveraging cutting-edge software and technology to deliver unparalleled results. With a dedicated engineering team equipped with modern software tools, including manufacturers' software and AutoCAD with dynamic blocks, Quinlan Cranes ensures that every project is executed with precision and efficiency from conception to completion.

Central to our engineering services is our ability to produce high quality scaled drawings for all lifts. Our team meticulously design and plan each lift, taking into account various factors such as load capacity, site constraints and environmental

considerations.

Through detailed scaled drawings, Quinlan Cranes provides customers with a clear visualisation of the lift process, enabling informed decision-making and minimising potential delays or issues during execution.

Our engineering capabilities extend beyond mere planning and design. With a focus on continuous improvement, our team is constantly innovating and refining their processes to deliver greater value to customers. Whether it's optimising lift configurations, enhancing safety protocols or implementing sustainable practices, Quinlan Cranes remains at the forefront of technical advancement, driving positive change within the industry.
